His Excellency the President of the Republic,

The Supreme Sovereign of the Kingdom of Germany and Trustee of the Reich, Peter I, presents his compliments to His Excellency the President of the United States of America and has the honour to convey this letter to His Excellency. He uses this occasion to bring the new state to the attention and requests recognition by a declaration of recognition as well as the establishment of diplomatic relations with the United States of America and the free people of America.

The Kingdom of Germany was founded in 2012 by free decision. Its efforts are aimed, among other things, at the restoration of international law, the revocation of the order of the Occupation Law and the implementation of a general peace settlement.

For some of the Germans initially, with the foundation of the Kingdom of Germany the vision of an independent German state became reality, which, as a republic governed by councils organised on the basis of grassroots

democracy in conjunction with a constitutional electoral monarchy, makes a genuine new beginning possible. Since then it has offered the opportunity to show all people how an alternative community form of the future can be shaped. It has been created as a tool for creating lasting peace on Earth. The Supreme Sovereign has the honour to enclose a copy of the official State Foundation Charter. The recording of the state foundation ceremony of September 16, 2012 can be viewed at the following link: "<http://koenigreichdeutschland.org/de/staatsgruendungsvideo.html>".

The Kingdom of Germany offers to the German people and to the whole of humanity the opportunity for a communal renewal. At the same time, through its development-promoting community form, it sees itself as a genuine offer of personal and collective freedom in lasting peace. The state of the Kingdom of Germany is a tool for organising and financing the community and merely exercises a supervisory function.

The basis and guarantor for this is the Constitution of the Kingdom, which the Supreme Sovereign, in recognition of the inalienable human rights and driven by the desire for lasting peace, determined and proclaimed when the Reich was founded. At the same time this constitution is a mirror of the order of creation. The Supreme Sovereign continues to have the honor of referring to this Constitution, to which about 1600 subjects and members have already declared their support, and which can be accessed at the following link: "<http://koenigreichdeutschland.org/de/verfassung.html>". He is convinced that the new state community form of the Kingdom of Germany will continue to gain acceptance, constantly expand and endure.

The Supreme Sovereign, committed to respect for the whole of humanity, to international understanding and peace, in particular has the task of representing the state under international law. In order to establish international relations, the Vienna Convention on Diplomatic Relations and the Vienna Convention on Consular Relations have been ratified and also the *Renewed United Nations* have been drafted. The Supreme Sovereign has the honour to refer to the corresponding explanations which can be viewed at [www.united-nations.org](http://www.united-nations.org).

Furthermore the Supreme Sovereign has the honour to enclose a certified copy of his diplomatic passport and requests to declare the acceptance in this respect as Head of State and foreign diplomatic representative of the Kingdom of Germany.

In order to promote the first steps towards the establishment of intergovernmental relations, the Supreme Sovereign further requests a personal meeting at the official residence of His Excellency. Should His Excellency not be able to do so due to other obligations, the Supreme Sovereign at first politely proposes an appointment with the diplomatic representative of His Excellency in Berlin, Her Excellency Ambassador Mrs. Robin Quinville.

The Supreme Sovereign finally avails himself of this opportunity to offer His Excellency the President of the United States of America the assurance of his utmost respect.

Wittenberg, September 04, 2020

Enclosures:

- certified copy of State Foundation Charter
- certified copy of the signed constitutional document
- certified copy of diplomatic passport
